

Amendments to the Claims:

This listing of claims replaces all previous versions, and listings, of the claims in this application.

1-31. (cancelled)

32. (new) A method of generating a group of persons from a plurality of participating persons for enabling networking, said method comprising:

- (a) each participating person selecting a set of indications;
- (b) indicating in the set of indications of said each participating person at least one other participating person that said each participating person wishes to meet;
- (c) recording the set of indications in a database after indicating;
- (d) processing the set of indications recorded in the database by a computerized system to form the group, comprising:
 - (i) including as a first member of the group any participating person who has indicated at least one other participating person in the set of indications, thereby also becoming a last new member of the group;
 - (ii) including in the group one other participating person indicated in the set of indications of the last new member of the group, said other participating person thereby becoming the last new member of the group after joining the group;
 - (iii) repeatedly including new persons to the group by the above step
 - (ii) until another participating person indicated in the set of indications of the last new member of the group is already included in the group.

33. (new) The method as claimed in claim 32, wherein the plurality of participating

persons are already pre-selected in terms of having already indicated a common time and a common place to meet.

34. (new) A method of generating a group of persons from a plurality of participating persons for enabling networking, said method comprising:

- (a) each participating person selecting a set of indications;
- (b) indicating in the set of indications of said each participating person at least one other participating person that said each participating person wishes to meet;
- (c) recording the set of indications in a database after indicating;
- (d) processing the set of indications recorded in the database by a computerized system to form the group, comprising:
 - (i) including as a first member of the group any participating person who has indicated at least one other participating person in the set of indications, thereby also becoming a last new member of the group;
 - (ii) including in the group one other participating person indicated in the set of indications of the last new member of the group, said other participating person thereby becoming the last new member of the group after joining the group;
 - (iii) repeatedly including new persons to the group by the above step ii until the number of persons in the group reaches a predetermined quantity.

35. (new) The method as claimed in claim 34, wherein the plurality of participating persons are already pre-selected in terms of having already indicated a common time and a common place to meet.

36. (new) A method of generating a group of corporations from a plurality of participating corporations for enabling networking, said method comprising:

- (a) each participating corporation selecting a set of indications;
- (b) indicating in the set of indications of said each participating corporation at least one other participating corporation that said each participating corporation wishes to meet;
- (c) recording the set of indications in a database after indicating;
- (d) processing the set of indications recorded in the database by a computerized system to form the group, comprising:
 - (i) including as a first member of the group any participating corporation who has indicated at least one other participating corporation in the set of indications, thereby also becoming a last new member of the group;
 - (ii) including in the group one other participating corporation indicated in the set of indications of the last new member of the group, said other participating corporation thereby becoming the last new member of the group after joining the group;
 - (iii) repeatedly including new corporations to the group by the above step ii until another participating corporation indicated in the set of indications of the last new member of the group is already included in the group.

37. (new). The method of claim 32 wherein the set of indications is a list of other participating persons that a participating person wishes to meet.

38. (new). The method of claim 34 wherein the set of indications is a list of other

participating persons that a participating person wishes to meet.

39. (new). The method of claim 36 wherein the set of indications is a list of other participating corporations that a participating corporation wishes to meet.
